***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-13, 20-27, drawn to a serially programmable integrated circuit having a memory array with redundant columns, classified in class 365, subclass 200.
  - II. Claims 14-19, drawn to a method for programming a memory array on an integrated circuit, classified in class 365, subclass 189.07.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the integrated circuit in Invention I can be programmed using other method than that claimed in Invention II (i.e. flash...) whereas the method of programming a memory array in Invention II can be applied with other memory types than that claimed in Invention I (i.e. EEPROMs, SDRAMs, ...)
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
5. A telephone call was made to Mr. Justin Liu on 10/1/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2824

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 2824
